**God does not suffer belief.
Belief does not achieve God.**

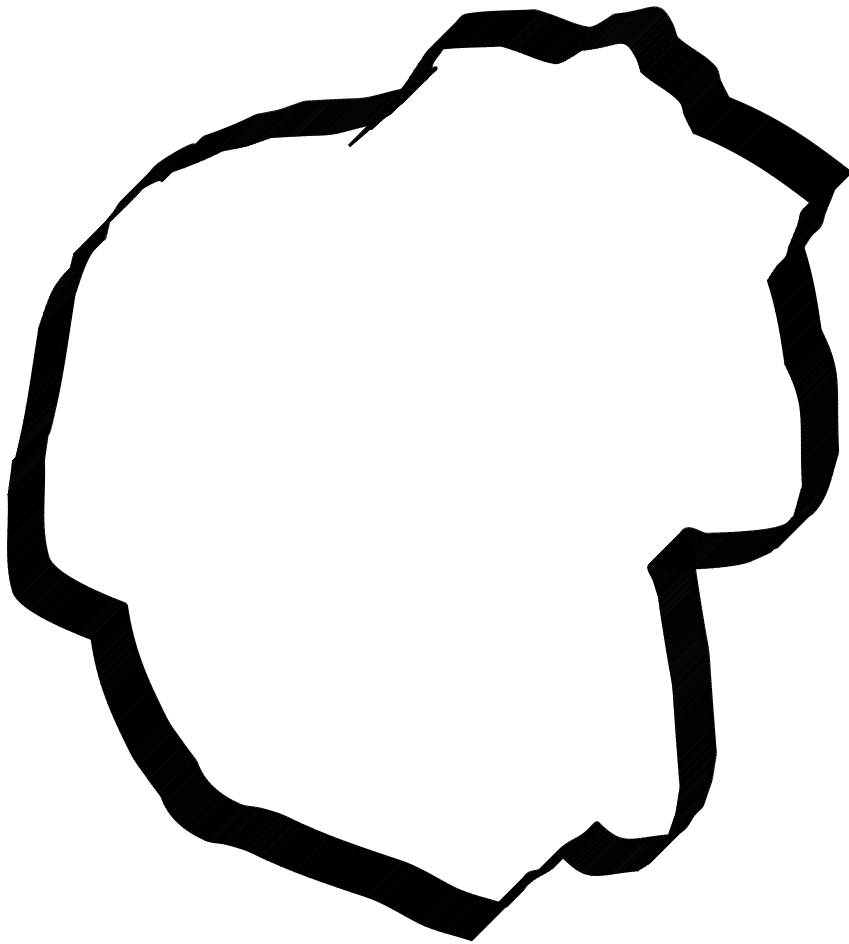

Approximate Realities

1.

All logic is past, or
there were no
world.

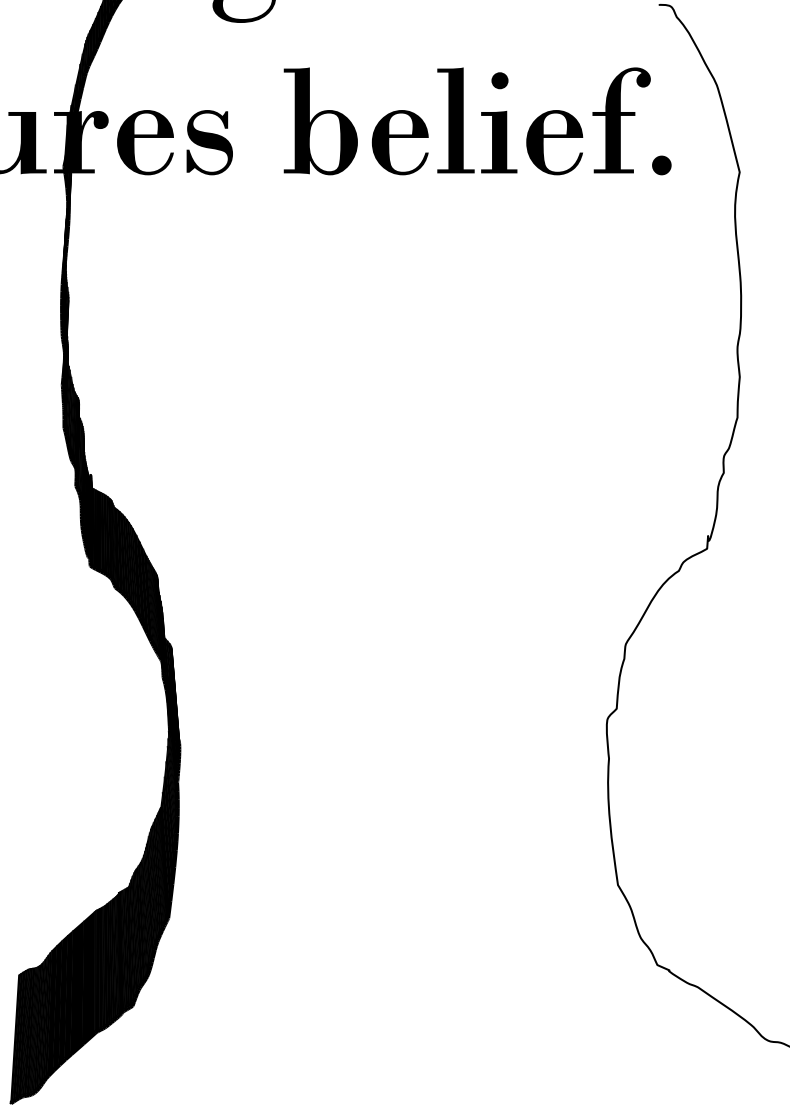

2.

Logic undoes
itself, or we could
never be.

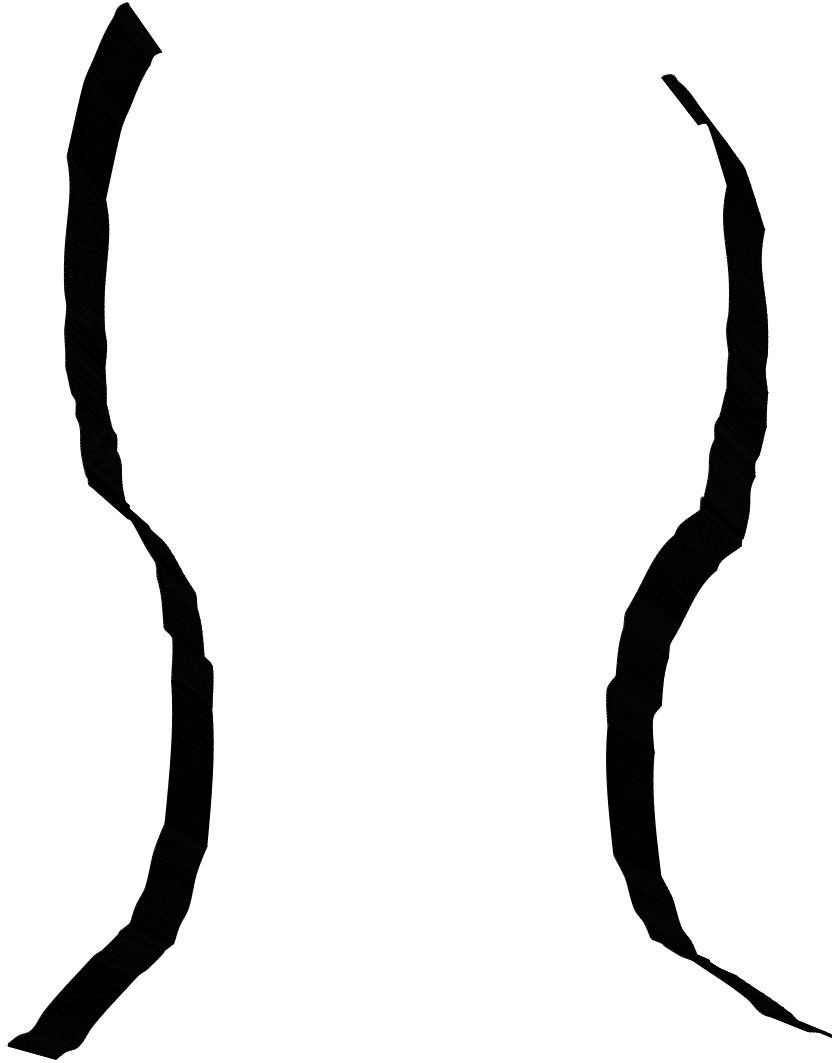

3.

A living God
abjures belief.

4.

Belief fails God.

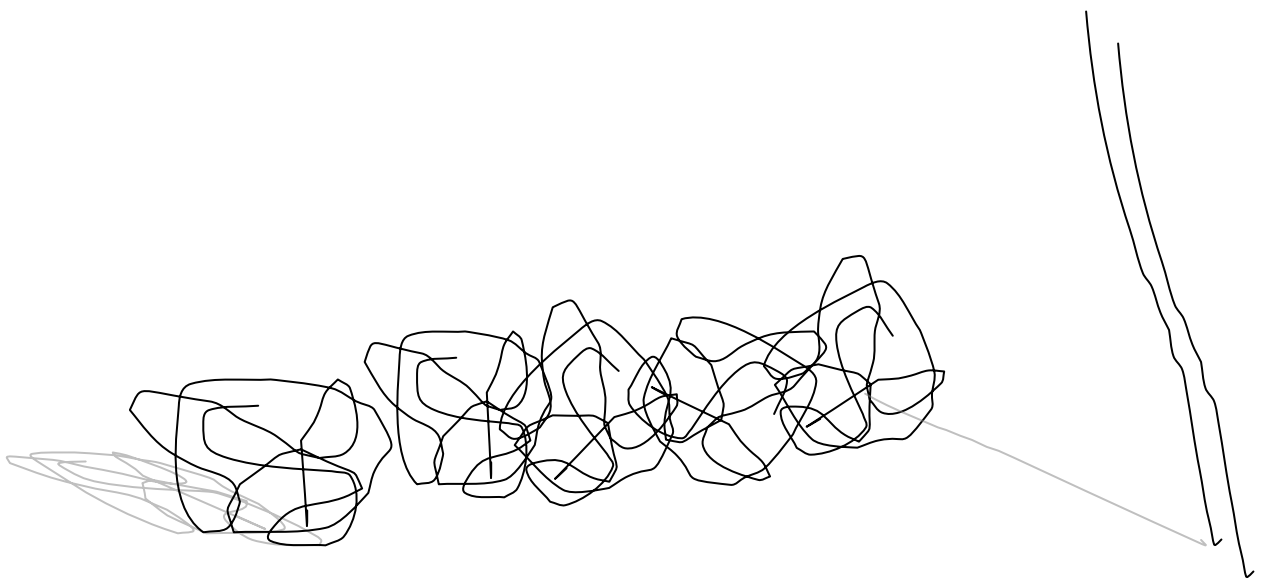

5.

Normal walks

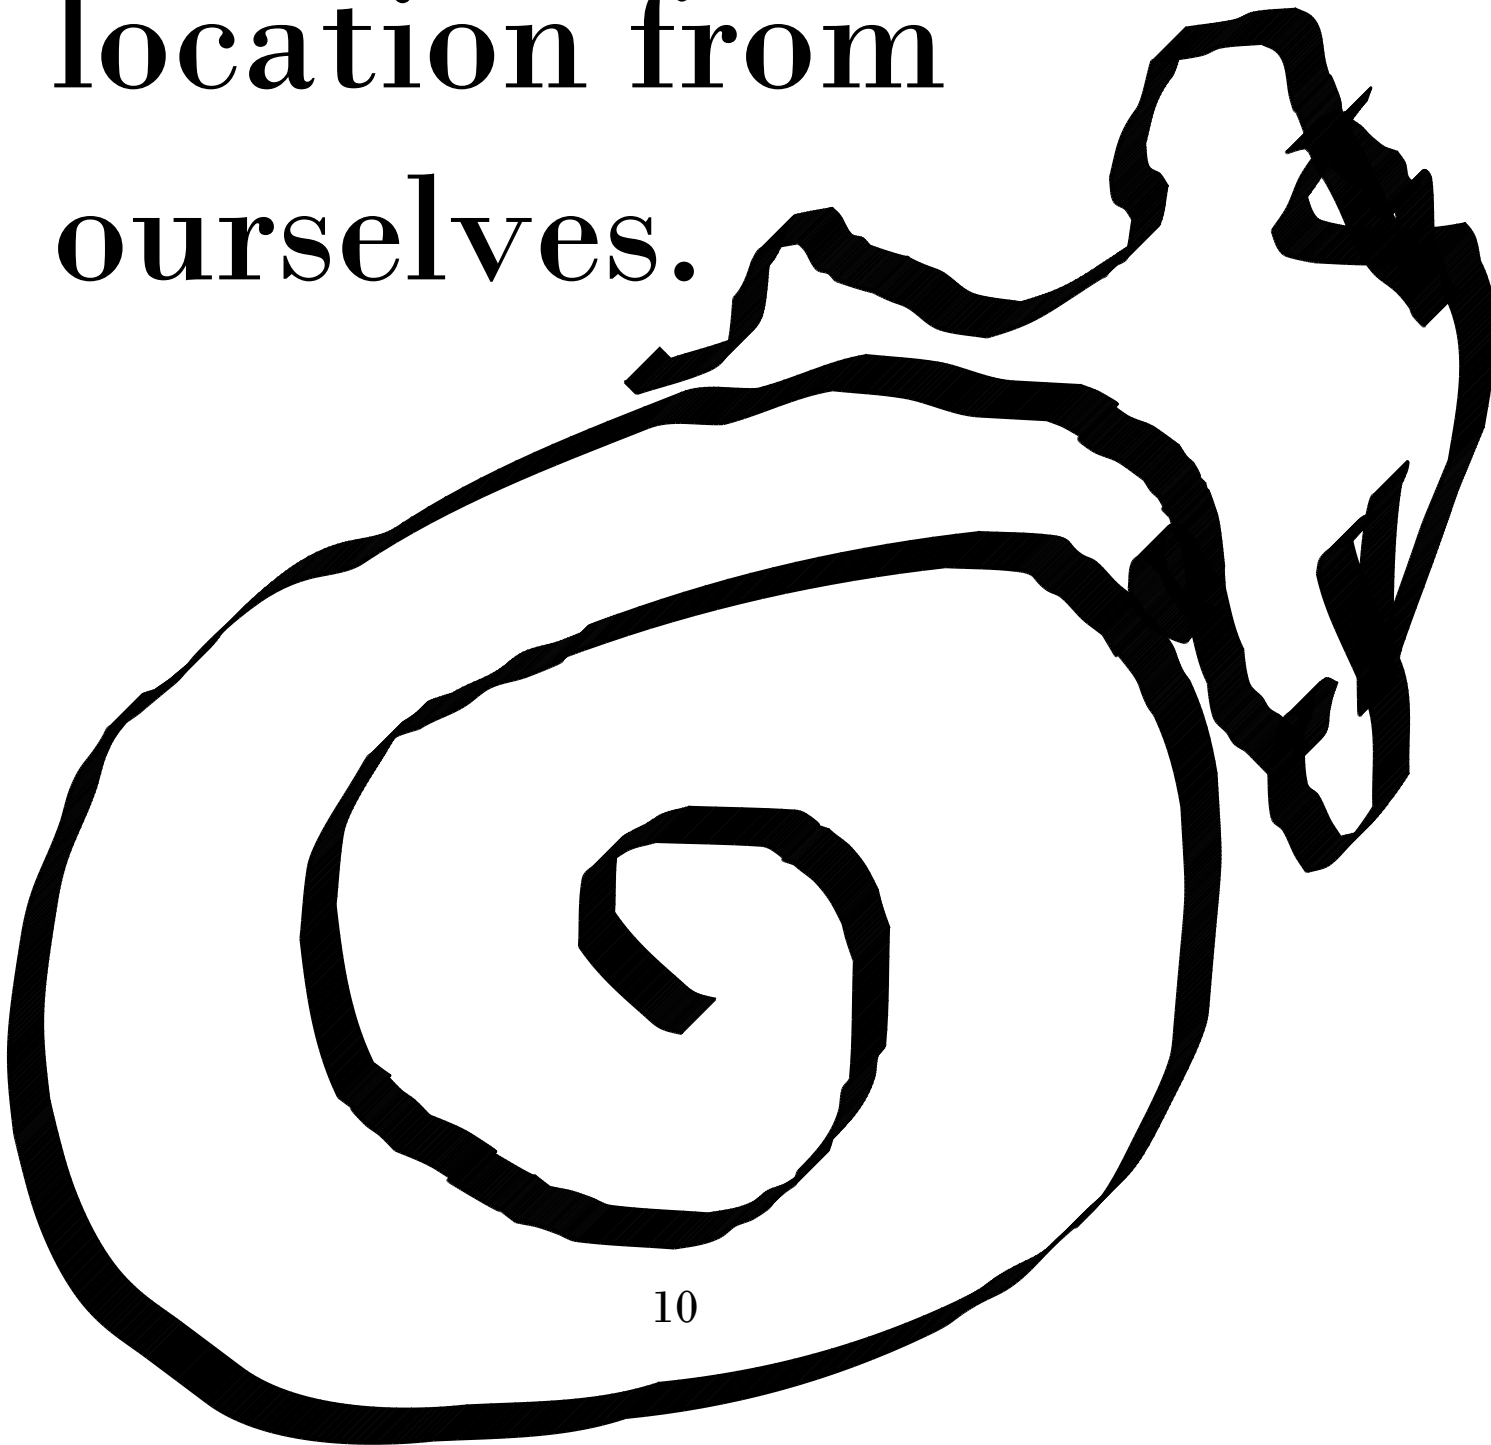

shift

kaleidoscopically.

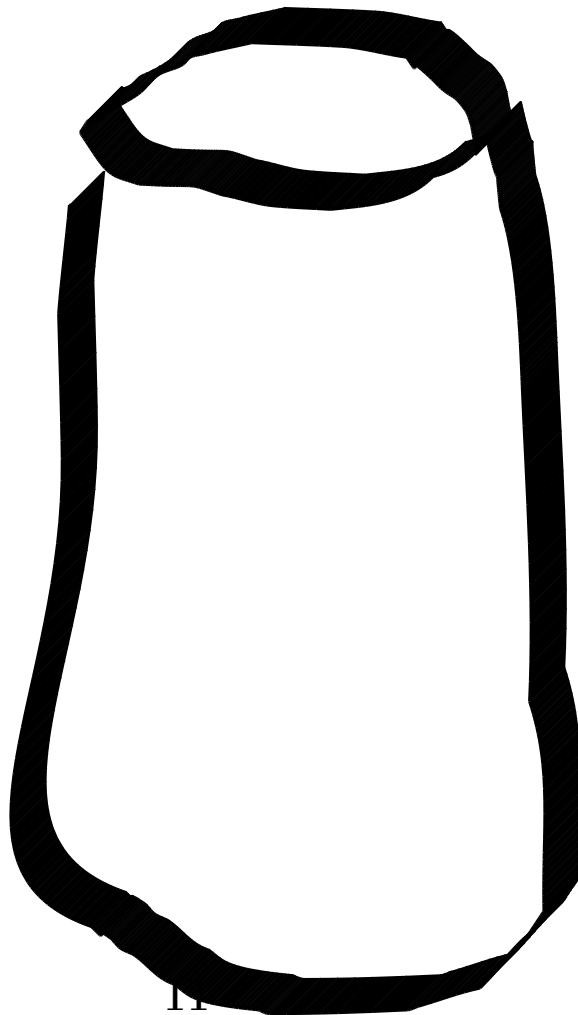

6.

Pattern quantifies
location from
ourselves.

7.

Technologies per
se approximate
realities.

Approximate Realities
